Nationality: Palestinian
My Portfolio: ameed.dev

PROFILE

Odoo Developer and Full-Stack Engineer specializing in tailored ERP solutions, complex integrations, and production systems. Design and deliver scalable Odoo customizations across CRM, Sales, Inventory, Accounting, POS, and eCommerce, combining clean Python architecture with PostgreSQL, JavaScript, and REST APIs. Experienced in troubleshooting critical issues, optimizing server performance, securing infrastructure, and improving the reliability of business operations.

EDUCATION

Bachelor's Degree in Computer Engineering, An-Najah National University — 2022

TECHNICAL SKILLS

ERP / Odoo: Odoo v14–v20, custom module development, XML/QWeb views, ORM, Odoo Studio, Odoo.sh

Languages & Frameworks: Python (core + Odoo APIs), JavaScript/TypeScript, React, Next.js, Node.js (REST APIs)

Databases: PostgreSQL (advanced queries, PL/pgSQL functions, indexing), pgAdmin

Integrations & APIs: REST, GraphQL (fundamentals), Stripe, PayPal, Aramex, WhatsApp Cloud API

DevOps & Tools: Docker, Docker-Compose, Git, GitHub Actions (CI/CD), Linux server administration, Nginx

Testing & QA: pytest, Odoo unit tests, Postman

Front-end: Front-end: React, Next.js, TypeScript, Tailwind CSS, responsive UI/UX, performance optimization.

Game Development: Developed multiple interactive games using Unity and C#.

Mobile Development: Built cross-platform Flutter applications with modern UI/UX and seamless functionality.

WORK EXPERIENCE

Odoo Developer

01 Aug 2026 – Present — ERP Smart

- Delivered end-to-end Odoo implementations and deep customizations across most core modules (CRM, Sales, Purchase, Inventory, Accounting, POS, Website/eCommerce), including security, workflows, automation, and reporting.
- Built custom Odoo apps from scratch (models, business logic, views/QWeb, JS widgets) using Python (ORM), XML, JavaScript, with clean architecture and production-ready code.
- Implemented API + third-party integrations (payments, shipping/logistics, messaging/notifications), supporting reliable sync jobs, logging, and failure-safe retries.
- Debugged complex Odoo issues, enhanced business workflows, optimized server performance, and handled production maintenance and security hardening against unauthorized access, crypto-mining, and compromise.

Freelance Odoo Developer & Full-Stack Web Developer

Jan 2024 – Present — Remote & client-site

- Enhanced Accounting + Inventory + Sales/Purchase with more detailed operational controls (validations, traceability, extended fields, and custom reports) to match real business processes.
- Developed advanced POS features, including a Call-Center page inside Odoo (one-click creation) with instant order handling, per-order authentication, and customized receipts/analytics.
- Integrated ZKTeco devices with Odoo and delivered supporting Tkinter desktop tools for device management and operational automation.
- Managed production deployments on Contabo VPS with Linux/SSH/GitHub workflows, plus Docker/Nginx/SSL, backups, and fast hotfix releases.
- Diagnosed and solved production issues, improved system stability and server performance, performed preventive maintenance, and protected VPS environments from intrusion, compromise, and crypto-mining threats.

HIGHLIGHTED PROJECTS

- **Never Stop Printshop – nsbs.biz:** Custom Odoo eCommerce platform with built-in Photoshop-style editor, dynamic pricing, checkout, and payment workflows; Square, Quickbooks, Elavon and Housecall Pro integration.
- **He & She Cosmetics:** Fully customized Odoo retail system with advanced POS configuration and multi-barcode scanning across multiple modules, shiply and sms integration all synced with a mobile app.
- **Chery Palestine, Jaecoo Palestine:** Corporate automotive websites rebuilt as Odoo-native platforms with vehicle showcases and lead management.
- **Shawerma House:** Custom Odoo Call Center and ZKTeco modules, Tkinter desktop integration, automated order processing, and attendance management.
- **Ceramic VIP & NX Seeds:** Customized accounting systems, React membership portals, e-commerce solutions, intelligent backend recognition, custom live chat, and account-based pricing.
